

Utility Review Checklist

Date	
Project Name	
Project Location	
City File Number	
Engineering Firm	
Engineer's Name	
Engineer's Phone #	
Engineer's Email	

This checklist is for Commercial projects. A Service Connection Plan must be submitted with the following information. Indicate if each of the following is included/completed, or "N/A" if the item does not apply to this project. If any item is checked "N/A," or requires additional notes/explanation, provide additional information in "Notes" at the end of the section.

This is a guide to plan preparation and may not be completely applicable to all situations.

NOTE: All projects with sewer flows resulting in an increase flow of greater than 4,000 gallons per day will require a Capacity Assurance (CAP) review. Please visit the following link for more information: <https://columbiascwater.net/about-wastewater/capacity-assurance-program/> or please call (803) 545-3400.

A General/Format –Indicate if the following are included:
